### From the HJH/HHS Principal

The Urban Dictionary defines teacher as:

*1) Provider of knowledge and insight. 2) Mentor. 3) One who inspires, motivates and opens up minds to the endless possibilities of which one can achieve. 4) One who makes a positive difference in the lives of many. 5) One who is admired, appreciated and held in the highest esteem.*

As I observe the daily tasks of the high school and junior high I recognize the investment teachers have into each student. I observe the remediation hours each teacher uses to help students get caught up, or who need extra time on an assignment. I observe the teachers continuously providing support and communication to Seniors for Senior Projects and graduation. I observe teachers taping ankles after school for student athletes. I observe teachers providing positive support to students in the hall. I observe students visiting teachers to talk about their day, or their lives.

In my fourth year as Principal at HHS, I am proud and amazed at how eclectic the high school and junior high faculty are as professionals. Their willingness to get the best out of our students is absolutely commendable.

Thank you for your time and efforts to make our students, school, and faculty great.

--Mr. Wadsworth, M.Ed.  
Principal
